

CONVENTIONAL

Adapted to a wide variety of planting populations. Has the ability for ear flex with extra kernel rows. Excellent agronomic package for no-till and reduced tillage systems. Excellent late-season health and plant intactness allow for late harvest. Moderate stature and nice late-season stay-green for a very attractive plant type. Can easily be positioned for early planting conditions. Excellent usage as both grain and silage. Strong response to population. Position in primary area and north of maturity rating.

PRODUCT FEATURES

- Benchmark hybrid for outstanding grain yield and silage performance with excellent quality and consistency
- Rapid emergence, spring vigour and grain drydown
- Adapted to a wide variety of planting populations
- Visually attractive hybrid with excellent grain quality and consistency
- Supported with durable stalks and roots through to late season
- Very good foliar health and disease tolerance
- Superior and consistent yield potential for anywhere in its maturity
- Excellent agronomic package for no-till and reduced tillage systems
- Excellent late-season health and plant intactness allow for late harvest

All orders and sales are subject to the PRIDE Seeds Terms and Conditions of Sale, which include but are not limited to the Limitation of Warranty & Remedy and Agronomic Zone and Planting Year. All Terms and Conditions of Sale are subject to change from time to time without prior notice. PRIDE® & Design, P® & Design, Advantage Acre®, and Pride Advantage Acre® & Design are registered trademarks of AgReliant Genetics Inc. Characteristics are assigned by PRIDE® based on comparisons with other PRIDE® products (not competitive products) through in-house field testing. Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. It is a violation of federal law to use any pesticide product other than in accordance with its labeling. NOT ALL formulations of dicamba or glyphosate are approved for in-crop use with products with Roundup Ready 2 Xtend® soybeans. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED AND APPROVED FOR SUCH USES. Contact the Pest Management Regulatory Agency with any questions about the approval status of dicamba herbicide products for in-crop use with Roundup Ready 2 Xtend® soybeans or products with XtendFlex® Technology. Roundup Ready® 2 Technology contains genes that confer tolerance to glyphosate. Roundup Ready 2 Xtend® soybeans contains genes that confer tolerance to glyphosate and dicamba. Glyphosate will kill crops that are not tolerant to glyphosate. Dicamba will kill crops that are not tolerant to dicamba. Contact your Bayer retailer, refer to the Bayer Technology Use Guide, or call the technical support line at 1-888-283-6847 for recommended Roundup Ready® Xtend Crop System weed control programs.
